F.F.C. Edmonds, Esq., M.A., B.Sc.,

Inspector of Schools, Coorg and Bangalore.

The Secretary to the Hon'ble the Resident

in Mysore, Bangalore.

Sir,

I have the honour to enclose herewith an application from the Correspondent, Srimathi Kamalabai Girls' High School for a full grant (1) for the completion of the compound wall (2) the construction of servant's latrine (3) for providing screens to sub-divide two of the larger rooms (4) for remetalling roads within the/compound ~~***~~ and covering them with Texaco Emulsion. Estimates and Plans prepared by the Municipal Executive Engineer are also sent herewith.

The following remarks are offered in connection with this application.

(1) A grant of Rs. 1000/- to build a portion of the compound wall was given in 1932. ~~***~~ In my opinion the whole of the school compound should be enclosed, as it is desirable to prevent unauthorised persons from entering the playground of a Girls' school. The cost of completing the wall is estimated to be Rs. 3757/-.

(2) There is at present no proper servant's latrine. There are 7 menial servants employed in this school and compound and they should have suitable sanitary arrangements provided in an institution of this sort. The work is estimated to cost Rs. 161/-.

(3) The upstairs hall in the east wing of this building is at present occupied by three classes. When these are working simultaneously there is considerable noise which must be distracting for teachers and pupils. It is proposed

Rs 37.57

Rs 161

Rs 757

Rs 10651

S. IV. 16

(A)

to divide this room into three separate rooms and one of the other classrooms into two sections by partitions of a semi-permanent nature. The cost of this work is estimated to be Rs. 757/-.

(4) The surfaces of roads of the compound are already beginning to be washed away in places. When grass grows, as it will, on roads of this type its removal usually entails loosening of the road metal. The proposed tar emulsion surface will provide a waterproof surface for at least five years. The cost of this work is estimated at Rs.1651/- . As is usual in the case of this school, I recommend ^{that} a full grant of Rs. 6376/- may be sanctioned as a special case. A sum of Rs. 3732 was provided in the current year's budget for the specific purpose of building the compound wall. The other works proposed are in my opinion necessary and as I have funds available for the purpose, I recommend that the total grant asked for may kindly be sanctioned.

6326?

The amount will be met from the allotment under the head "Account II-Education-Grant-in-Aid to Non-Government Secondary Schools - Building and Furniture grant to Secondary Schools" in the current year's Mysore Assigned Tract budget.

I have the honour to be,

Sir,

Your most obedient servant,

Edmonds
Inspector of Schools

Coorg and Bangalore.

Resident in Mysore.

Brief history of the institution from the date of its establishment to the date of
application tracing its growth and development and furnishing among other things an
accurate account of its financial condition.

The School was started in June 1931 with a magnificent
building of its own and a maintenance fund of Rs 25,000/-.
The School has income from fees levied at standard rates
and the excess of expenditure over the aggregate of the
interest on endowment and fees is met from the Education
Department.

The School started with the fourth form and lower
classes and is now a full fledged High School with pupils
appearing for the S.S.C. Public Examination.

The School is managed by a Board of 3 Trustees,
viz (1) The collector. (2) Mr. V.S. Jeevengadabwami Mudr.

From

F.F.C. Edmonds, Esq., M.A., B.Sc.,

Inspector of Schools, Coorg & Bangalore.

To

The Secretary to the Hon'ble the Resident

in Mysore, Bangalore.

Sir,

I have the honour to invite a reference to the Proceedings of the Hon'ble the Resident in Mysore, Bangalore, No. 2211/10.3.1933, sanctioning the payment of a Teaching Grant of Rs. 5168-0-0 to the Srimathi Kamalabai Girls' High School, Bangalore, for the year 1932-33.

2. I am enclosing herein the financial and other statements furnished by the Correspondent of the School. It is seen that the school is eligible for a grant of Rs. ~~5030-2-2~~ only as follows:-

Admissible expenditure.

Item (1) of the Financial statement	---	Rs. 7383-11-5	✓
" (6) of the Financial Statement	--	" 588-2--3	✓
		Rs. 7971-13-8	✓

as revised by Inspector

Deduct:-

Income from (1) fees	---	Rs. 1605-11-6	✓
-do- (2) Endowments.	"	1336-0-0	✓
		Rs. 2941-11-6	✓

Therefore net expenditure	---	Rs. 7971-13-8	✓
	--	Rs. 2941-11-6	✓
		Rs. 5030-2--2	✓

3. Since the Correspondent has already been paid a grant

One

137-13-10

of Rs.5168/- he is liable to refund a sum of Rs.137-13-10 to Government. I propose that this amount should be deducted from the grant now to be paid.

4. I also enclose herein a copy of the statement received from the Correspondent of the School showing the actual receipts and expenditure for the period from 1.4.1933 to 31.12.1933 and the anticipated expenditure from 1.1.1934 to 31.3.1934. It is seen from the statements that the Correspondent anticipates a net expenditure of Rs .7336/- as follows:-

High School Section.

1.4.1933 to 31.12.1933	---	---	---	Rs.7776-7-0 ✓
Less income from fees and endowment.	---	---	---	" 2268-14-9 ✓

				(a) Rs.5507-8-3 ✓

1.1.1934 to 31.3.1934	---	---	---	Rs.3026-7-9 ✓
Less anticipated income	---	---	---	" 1198-0-0 ✓

				(b) Rs.1828-7-9 ✓

				<u>Total Rs. 7336-0-0</u>

5. The High School only contains three muhammadian girls, and 2 Urdu Munshis (one male and one female), employed for these three girls, as the parents of two of them object to a male teacher. This is an extravagant arrangement and I propose that the salary of the male teacher be disallowed. This amounts according to the enclosed statements to Rs.87-2-0.

6. I therefore recommend that a grant of Rs.7111/- (Rs.7336/- less Rs.137-13-10 less Rs. 87-2-0) be sanctioned for the current year. The advance grant of Rs.2584/- sanctioned in this office No.1283/4-24, dated 19.4.1933 (a copy of which was already forwarded to you,) may be ordered to be deducted from the grant to be paid now.

7. The expenditure will be debited to the allotment under the head "Account II-Education-B.Grants-in-Aid to Non-Government Secondary Schools - Grants-in-Aid to Secondary Schools" in the current year's Mysore Assigned Tract budget.

I have the honour to be,

Sir,

Your most obedient servant,

Edmond

Inspector of Schools,
Coorg and Bangalore.

NOTE.—For purposes of this statement “salary actually paid” means the amount actually received by each teacher or servant for his personal use or maintenance, no part of which is surrendered or appropriated for the purposes of the school. In the case of honorary or quasi-honorary workers the nominal or assumed salary may be shown under “monthly salary” the real amount being shown under “salary actually paid.”

Instructions for the preparation of the Fee Returns.

1. The fee return forms are intended to show the amount of fees that could be collected if fees were levied strictly at the standard rates given in the Fee Regulations embodied in Chapter VIII of the Madras Educational Rules. The figures to be entered in the several columns of the returns should, therefore, be calculated according to the *standard rates* and not according to the rates fixed by Managers.

2. In girls' schools, the fee income should be calculated at half the standard rates. No fee return need be submitted in the case of schools added under Chapter VI of the Grant-in-Aid Code, but the actual fee receipts of such schools should be entered in the Financial Statement.

3. The classes of pupils or students to be shown in columns 6 and 7 of the fee returns are Muhammadans, Oriyas, girls, and the backward classes and castes enumerated in rule 15 of the Grant-in-Aid Code, who are allowed to pay fees at *half the standard rates* under Chapter VIII of the Madras Educational Rules. Pupils or students to whom Managers may have granted concessions in the matter of fee rates should not be included.

4. All other pupils or students whether full free or partially free should, for purposes of the returns, be treated as paying full fees, and such pupils or students should be shown in columns 4 and 5 at the amount of fees due from them at *full standard rates* in columns 8 and 9, no account being taken of free scholars or of those to whom special concession of paying partial fees has been given by Managers.

5. In columns 13 and 14 the figures should be entered against the class or form next below that into which the pupils concerned have been admitted—vide Rule 99, Chapter VIII of the Madras Educational Rules.

6. When a student in the third or fourth year University course does not attend the full course but attends one or more divisions only, he should be returned against the division or each of the divisions he is attending.

7. With the fee return a separate statement may be submitted showing the amount of fees, if any, considered to be irrecoverable on account of the death of any pupil or student in the middle of the term or of the withdrawal of any pupil or student whose intention to discontinue his studies altogether has been explicitly signified. The number of such pupils or students, the class or form in which they were reading, the amount of irrecoverable fees at standard rates and the reasons why the fees cannot be recovered should in each case be specified in the statement.

8. The total amount of fees for an official year, as calculated from the fee returns of the school or college for the long and short terms of that year, should be given in the financial statement of the school for the year.

9. The fee returns as well as the financial statements of First-grade Colleges should be submitted direct to the Director, and those of all other institutions to the Inspector or the Inspectress as the case may be. The fee returns should be submitted soon after the close of each term and the financial statement soon after the close of each official year.

Instructions for the preparation of the Fee Returns.

1. The fee return forms are intended to show the amount of fees that could be collected if fees were levied strictly at the standard rates given in the Fee Regulations embodied in Chapter VIII of the Madras Educational Rules. The figures to be entered in the several columns of the returns should, therefore, be calculated according to the *standard rates* and not according to the rates fixed by Managers.

2. In girls' schools, the fee income should be calculated at half the standard rates. No fee return need be submitted in the case of schools added under Chapter VI of the Grant-in-Aid Code, but the actual fee receipts of such schools should be entered in the Financial Statement.

3. The classes of pupils or students to be shown in columns 6 and 7 of the fee returns are Muhammadans, Oriyas, girls, and the backward classes and castes enumerated in rule 15 of the Grant-in-Aid Code, who are allowed to pay fees at *half the standard rates* under Chapter VIII of the Madras Educational Rules. Pupils or students to whom Managers may have granted concessions in the matter of fee rates should not be included.

4. All other pupils or students whether full free or partially free should, for purposes of the returns, be treated as paying full fees, and such pupils or students should be shown in columns 4 and 5 at the amount of fees due from them at *full standard rates* in columns 8 and 9, no account being taken of free scholars or of those to whom special concession of paying partial fees has been given by Managers.

5. In columns 13 and 14 the figures should be entered against the class or form next below that into which the pupils concerned have been admitted—vide Rule 99, Chapter VIII of the Madras Educational Rules.

6. When a student in the third or fourth year University course does not attend the full course but attends one or more divisions only, he should be returned against the division or each of the divisions he is attending.

7. With the fee return a separate statement may be submitted showing the amount of fees, if any, considered to be irrecoverable on account of the death of any pupil or student in the middle of the term or of the withdrawal of any pupil or student whose intention to discontinue his studies altogether has been explicitly signified. The number of such pupils or students, the class or form in which they were reading, the amount of irrecoverable fees at standard rates and the reasons why the fees cannot be recovered should in each case be specified in the statement.

8. The total amount of fees for an official year, as calculated from the fee returns of the school or college for the long and short terms of that year, should be given in the financial statement of the school for the year.

9. The fee returns as well as the financial statements of First-grade Colleges should be submitted direct to the Director, and those of all other institutions to the Inspector or the Inspectress as the case may be. The fee returns should be submitted soon after the close of each term and the financial statement soon after the close of each official year.

F.F.C. Edmonds, Esq., M.A., B.Sc.,

Inspector of Schools, Coorg and Bangalore.

The Secretary to the Hon'ble the Resident

in Mysore, Bangalore.

Sir,

I have the honour to forward herewith an application from the Correspondent, Srimathi Kamalabai Girls' High School, Bangalore, for a grant towards the purchase of books required for the school library. The library of this school is at present very inadequate containing as it does, only a few books, mostly gifts, of an unsuitable type. Under the instructions issued in connection with the Secondary School Leaving Certificate Examination all schools must have at least one 'library period' each week and it is essential that each of the High Schools has a fairly good stock of books.

The estimated cost amounts to Rs. 300/- and I recommend that under article 50 of the Grant-in-Aid Code for the Indian Schools in the Civil and Military Station, Bangalore, a grant not exceeding Rs. 300/- or the actual cost, whichever is less, may be sanctioned as a special case. It has been customary to sanction full grants to this school as Government pays the net cost of its running.

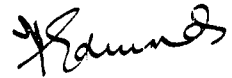

The amount will be met from the allotment under "Account II - Education - B. Secondary - Grants-in-Aid to Non-

Government Secondary Schools - Building and Furniture grants^a
in the current year's Mysore Assigned Tract budget.

I have the honour to be,

Sir,

Your most obedient servant,

Inspector of Schools,

Coorg and Bangalore.

The Secretary to the Hon'ble the Resident
in Mysore, Bangalore.

I have the honour to forward herewith an application
from the Correspondent, Srimathi Kamalabai Girls' High School,
Bangalore, for a grant towards the purchase of Science apparatus.
The articles indented for are necessary as there are girls who have
taken Chemistry as their Optional Subject in the S.S.L.C. Examination,
and as Elementary Science is taught in all the forms. The
total estimated cost amounts to Rs.307-4-6 and I recommend that
under Rule 50 (i) of the Grant-in-Aid Code for Indian Schools, a
grant not exceeding Rs.307-4-6 or the actual cost, whichever is less,
may be sanctioned as a special case. It has been customary to sanction
full grants to this School as Government pays the net cost of
its running.

2. The amount will be met from the allotment under "Account-II-Education-B-Secondary-Grants-in-Aid to Non-Government Secondary Schools-Building and Furniture grants" in the current year's Mysore Assigned Tract budget.
